

A hand is shown holding a long, vibrant green leaf. Below the hand, a splash of white liquid, possibly milk or cream, is captured in mid-air, creating a dynamic and fresh visual. The background is a clean, bright white.

Solavie Facial Application Technique

NOURISHING CREAM WITH COLOSTRUM

Healthful and soothing, it preserves natural brightness of your skin. Nourishes, repairs and brightens the complexion thanks to a gentle and enveloping texture.

Prepare your face for 5 to 10 minutes of this ritualistic massage, ideally once or twice per week: in the morning if you have a day off, to relax in the evening after a busy day, or even before a night out.

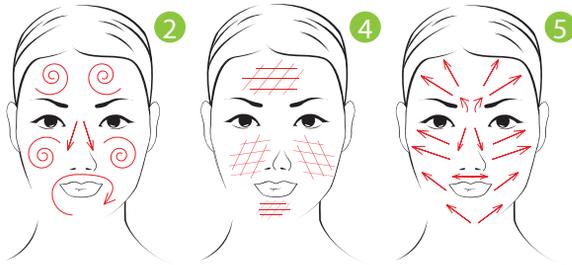

Keep your back and neck straight and breathe calmly, with your face expressive, smiling broadly, your lips stretched out and smiling while pressing firmly against your teeth, your cheeks standing out and your eyes smiling.

solavie
pour elle

Application:

- 1 With your fingers completely flat, massage the two sides of your forehead **horizontally** from the middle outwards. Repeat this several times. With your eyes open wide and smiling, your gaze remaining slightly raised
- 2 Massage from the bottom of your eye contour out to your temples and up to the top of your eye contour by gently applying pressure around the orbital bone
- 3 Extend your smile to make your cheeks stand out and massage them with circular movements extending upwards and outwards. Set in place by your smile, your cheeks will resist the movements
- 4 Continue to smile and massage your lips, concentrating on the lip contour
- 5 Slightly lift your head up to massage the contour of your face. Relax your jaw
- 6 Finish off by massaging under the chin, your face turned upwards and slightly backwards, your smile fixed upwards, then massage the sides of your chin, with your face raised

MASSAGE

- 1 Apply **3 pumps for the face** and 2 more for the neck onto the fleshy pads of your fingertips and warm the cream between the fingertips of both hands
- 2 **Massage using circular motions** with 4 fingers from both hands, to ensure the cream is absorbed across the entire face, then across the entire surface of the neck
- 3 Apply **2 more pumps** of nourishing cream and 1 more for the neck onto the fleshy pads of your fingertips and warm the cream between the fingertips of both hands
- 4 For the second application of cream, apply in a thick layer over the first one. Do not massage. Leave for 3 to 10 minutes. Sit back and **relax**

- 5 Then massage the cream in the direction of the arrows, along the **skin's fragile contour lines and the expression lines**. Work on the two sides of the face simultaneously, avoiding the eye contour, where you should take your time in order to avoid pulling the skin
- 6 Press gently, allowing the excess cream to be absorbed into the skin. **Enjoy this moment of relaxation**, enveloped in rose and vanilla fragrance

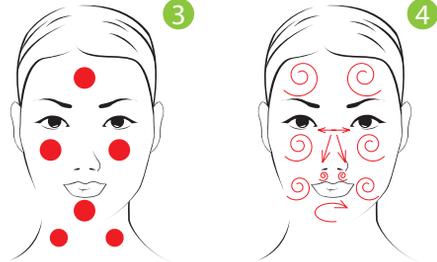

CLEANSING MILK WITH COLOSTRUM

Solavie Smooth Face Cleansing Milk removes all traces of make-up and pollution. Leaves a clean, soft and soothed skin. Contains coconut oil (smooths and softens the skin).

Solavie Cleansing Milk can be used to cleanse and remove make-up on the face, eyes and neck. Massaging a sufficient quantity of the milk into the skin will absorb make-up, excess sebum and impurities that have built up during the day. As hydrating as a cream, as soothing as a mask, this step in your skincare ritual prepares your skin for the next treatment application.

Active cleansing

Application:

- 1 Wash your hands with soap and then **shake** the bottle
- 2 Apply **4 pumps for the face** and another 2 for the neck into the palm of your hand, then warm the milk in your hands
- 3 Spread the product over the entire surface area to be treated
- 4 **Massage your face** (including the eye and lip contours) with circular movements, keeping your fingers flat, so that the product absorbs into the skin across your entire face. Enjoy the relaxing effect of this facial massage.

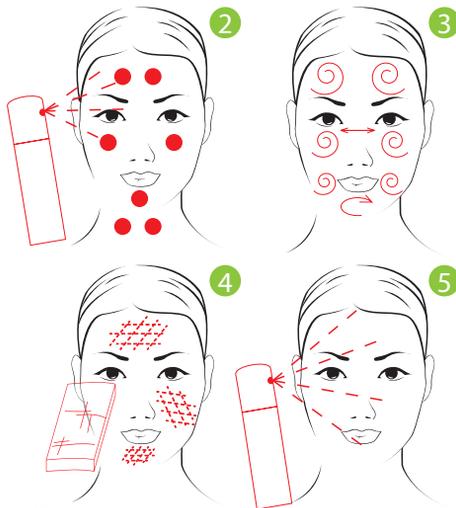

TONING LOTION WITH COLOSTRUM

By regenerating and enhancing skin beauty, a real feeling of freshness is provided to your face. Contains alfalfa extract (for a toning action) and grapefruit seed extract (rich in vitamin C).

Solavie Toning Lotion complements the Cleansing Milk because it emulsifies it and activates its rinsing effect by removing all the impurities that the milk has trapped. Unlike water alone, it does not dry the skin out. Refreshing and pleasantly perfumed, it is also a tonic that can be used any time you need to cool down.

Much more than simply rinsing the skin

Application:

- 1 **Shake** the bottle
- 2 Spray 5 pumps onto your face and 2 onto the neck area
- 3 Massage the lotion in **circular movements** covering the entire face in order to emulsify the milk
- 4 **Gently pat** with a tissue to absorb the products
- 5 Spray onto your face, then benefit from the refreshing effect by leaving it to evaporate for several minutes or massage your face to distribute the lotion across it

DE-STRESS EYE CONTOUR CREAM WITH COLOSTRUM

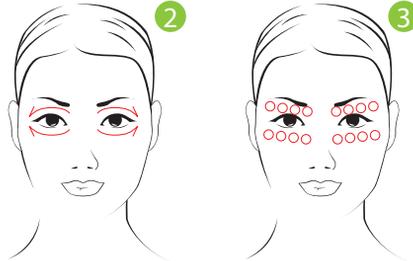

Nourishes and revitalizes eye-contour for an instant soft and cool effect.

Contains Aloe Vera, lavender and ginger extract and cucumber extract.

Totally de-stressing for the fragile skin around the eyes, this massage soothes and relaxes the muscles around the eye contour, on the eyebrows and forehead. At the end of the day, your eye contour is alleviated from stress and prepared for the evening. Before going to bed, first prepping your skin with Solavie cleansing milk and toning lotion, this eye contour cream will reveal its preventative anti-ageing action.

Application:

- 1 With your fingertips, apply **1 pump under each eye**, then close your eyes
- 2 **Massage the eyelids from the inner section**, gently sweeping outwards, simultaneously on both sides, without putting any pressure on the eyeballs and without pulling the skin. If necessary, take your time to avoid pulling the skin and massage one side at a time
- 3 With the fleshy pads of your fingertips, **gently apply pressure** for several seconds

REVITALISING SERUM WITH COLOSTRUM

It deeply nourishes the skin and reveals its natural luminosity. Contains Aloe Vera, macadamia oil, argan oil, jojoba seed oil, lavender and ginger extract, Alfalfa and cucumber extract.

Choose your morning ritual:

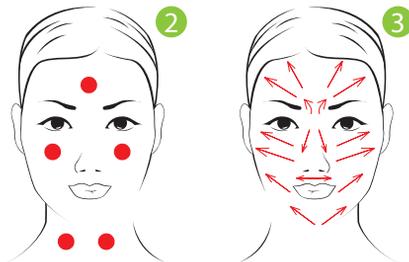

- **INTENSIVE** for preparing for a perfect make-up application: cleansing milk + toning lotion + eye contour cream + serum
- **PICK-ME-UP** for refreshing and awakening the senses: toning lotion + serum

Choose your evening ritual:

- **TOTAL** for deep cleansing and for the booster facial massage: the full Solavie range
- **EXPRESS** for massaging with cleansing milk, removal with a cotton pad, serum

Intensive treatment

Application:

- 1 Apply **3 pumps** for the face and 2 more for the neck onto the fleshy pads of your fingertips and warm the serum between the fingertips of both hands
- 2 With the product on your fingertips
- 3 Gently spread the product in a fine film, lightly massaging or patting upwards and outwards
